Subject: George AFB's Draft Sampling and Analysis Plan Addendum and Health and Safety Plan Groundwater Pesticide Investigation dated

September 2000

Indira,

Please conduct a detailed review on the subject document, but focus the review

to see if the plan can achieve the objective of identifying the pesticide source, and evaluating the nature and extent of dieldrin in soil and groundwater

near the LF-39 landfill. I also need Techlaw to conduct the QA/QC review for

this and all future SAP documents. As standard procedure, any QA/QC comments

should be submitted to Joe Eidelberg in our QA office and me. Because the AF

needs an expedited review, can you complete the review and send me the email attachment of your comments by COB 9/18?

Charge this effort to following: Seq # CO13, OU-3, action code LY. jc

For Joe: I'll need your approval review of any Techlaw QA/QC comments by COB

9/19.
